

4-H Interactive Exhibit

6th-8th Grade

Exhibits should provide informative information related to a 4-H project.

Guidelines to Follow

1. All 4-H members **MUST** do individual exhibits. No partners.
2. **Do Not** use live animals or babies. **Do Not** use audience participation.
3. Your exhibit presentation should be between **1-2 minutes long**.
4. Your exhibits should answer the questions: **HOW, WHY, WHAT, IF**, etc.

Steps in Planning and Giving a Demonstration

1. Planning

- A. Choose one idea/ 4-H Project
- B. Decide what specific information you want to talk about.
- C. Summarize your information into bullet points.

2. Preparation

- A. Secure all materials and equipment
- B. Use a tri-fold board, posters, or digital format (PowerPoint or Google Slides) include title and organize information in a logical order
- C. The exhibit should be easy to read. Use large and dark block letters.
- D. Prepare and **practice** your presentation.

3. Presentation

- A. Speak loud and clear.
- B. Smile! Look at your audience. Try not to read your board!
- C. Set up your presentation so it looks nice and neat.
- D. At the end– Tell your source and ask for questions.
